I. ANNOTATION

The graduation seminar is intended to expose students to synthesized version of the knowledge and skills of international business gained throughout their tuition and by virtue of this – to shape and focus undergraduates’ preparation towards their successful graduation. The subject covers essential theoretical and methodological guidance for professional structuring and developing of the diploma project as well as the types of questions to be included in the state exam. A range of fundamental practical and applied aspects of developing research and / or enterprising work as part of the interdisciplinary approach to education in the “International Business” program are also incorporated in the thematic content. During the tuition process in the framework of this subject, students will gain knowledge about the structure of various types of research work, the methodological content of such and the composition of the multi-layered state exam. Upon completion, students should also be able to work independently with sources of academic literature, to arrange and critically analyze various author productions and be competent to apply them in a particular context.
