A joint workplace of Charles University in Prague and the Academy of Sciences of the Czech Republic

# About CERGE-EI

## CERGE-EI

The Center for Economic Research and Graduate Education – Economics Institute is a joint workplace of Charles University in Prague and the Academy of Sciences of the Czech Republic dedicated to advancing the frontiers of economic research and graduate education.

CERGE-EI offers Western-style graduate education in economics taught in English – PhD in Economics and MA in Applied Economics. It also has two study abroad programs for US undergraduate students – the Undergraduate Program in Central European Studies (UPCES) and the International Economics and Finance program (IEF).

*In a remarkably short period of time, CERGE-EI has become one of the most prominent places in Europe to study economics.*

**Professor Orley Ashenfelter**, Princeton University  
Former President of the American Economic Association

## International Recognition

The Social Science Research Network (SSRN) places CERGE-EI among the **top 3%** of 1500 Economics Departments and Research Centers worldwide. Research Papers in Economics (RePEc) has ranked CERGE-EI among the **top 5%** of more than 6000 economic institutions worldwide for the last 10 years.

## Successful Alumni

By graduating from CERGE-EI, you join our international alumni community. Our graduates hold high-level positions in more than 30 countries. Employers include international organizations (including The World Bank, IMF, EBRD, ILO, UNDP, and OECD), government ministries, central banks, universities, and the private sector (e.g. McKinsey, BCG, Moody's, EY, eBay, IBM, Deloitte, Credit Suisse, and Citibank).

## International Faculty and Expert Professionals

In our MA in Applied Economics program you will be taught by members of our international faculty, consisting of outstanding researchers who publish widely and hold PhDs from prestigious institutions, as well as by business professionals working in government organizations, central banks, and private enterprises.

## MA in Applied Economics Program

Distinguish yourself! Earn a Master of Arts in Applied Economics degree that will empower you to launch a successful career in finance, economics, consulting, or as an entrepreneur.
